About the Trainer – Daniela Suchoňová

After studying at two universities and gaining international study experience, I recognized the gap between academic knowledge and the real-world skills required for long-term professional success. With over 13 years of experience in finance and management at Partners, I am grateful to do the work that fulfils me while allowing continuous personal and professional growth. Today, my greatest joy is building a team in Slovakia and Bulgaria and, together with my colleagues, helping clients achieve their financial goals.

About the Company

Founded in Slovakia in 2007, Partners entered the financial services market with the ambition to raise industry standards and deliver client-first, high-quality financial planning based on individual solutions and long-term partnerships. Today, we serve more than 300,000 clients and achieve a 95% client satisfaction rate, reflecting our strong focus on trust, expertise, and long-term value. Continuous innovation and sustainable growth remain at the core of everything we do. Partners Group BG has been operating since 2018 and is a leader in the Bulgarian financial services market.

Here are some of the students' feedbacks:

Feedback in your own words, from the heart (feelings, suggestions, observations, other...)

„I really liked this program and I'd recommend it to my colleagues. It was interesting and informative.“

„It's really great. I appreciate that we had a discussion, not just the lector to come and read a PowerPoint presentation! It's was really exciting for me! The lector was so lovely and nice!“

“For me, it was very helpful and I learned a lot from these sessions. I learned new things which I was not familiar with. The games were great, because they got me out of my comfort zone, which is one of the most important things that I learned- to be more confident and brave.“

“I really liked these classes, because for me personally they were very helpful and I will definitely keep in mind a lot of this information that I learned. Very helpful when it comes to business, how to achieve your goals and what to focus on.“

Which topic was the most beneficial for you and why?

„The Finance was the most beneficial for me, because I didn't know that I should start investing as soon as possible and that it will have an effect in the next few years.“

„The last topic of Management was the most valuable for me because I understood things I didn't know. The part with the managing your own life impressed me a lot.“

„The first topic about the changing world was the most beneficial for me. Mostly I learned about myself and I think that's the most important thing. You have to realize change and how to deal with it in order to be a citizen of the world. Nonetheless, the other topics were very useful.“

„The topic from which I benefited the most was the one about the finances and investing. The things I learned are 1) that I should start investing and saving money from an early age 2) that I should try to have more assets than liabilities 3) the way I should manage my money, my income 4) what skills I should have so that I can be successful.“
